✦ The Chronicles of The Last Jedi ✦

I saw after the Lord judged all mankind,

the kingdoms were left in ashes.

The Walking Dead scavenged the earth

amongst ruins of the old world

Pirates conquered the ruins

homes were nowhere to be found

and there was never ending chaos and war

among those who never repented

And from the ashes rose

Palpatine, the deceiver

and he said: “Let there be light once more.”

behold, the Jedi gathered,

in false light

they restored the force once more

and built again a galactic empire of iron

then the world was dazzled

The Kaminoans marveled

and joined the Jedi at last.

the common fremen,

were enslaved beneath the Jedi’s machine

And The world rose again,

each striving for its place.

the Wizards and Dwarves

raised the Holy Place of Erebor

and the Ministry of Magic

its courts gleaming with false covenant.

Then House Harkonnen

were granted a den,

remaining as the iron fist of the Jedi.

But the Sith

were jealous of the Jedi’s rule.

They forged their own cities of Iron,

and stood in silence,

their wives

Bene Gesserit

whispering schemes

waiting for their hour.

Then the Jedi feared,

and offered the Sith

an inheritance

to Arrakis

the source of their spice

the land where the fremen are enslaved

the Sith took the bait,

and the Harkonnens ambushed them,

the Jedi have betrayed them.

Their kingdom burned in ashes.

Yet after the wild fire

the Bene Gesserit,

spread whispers of a prophecy:

that a messiah would rise,

pluck the horns of each house,

and rule as their one true king.

And the boy was grown— Paul Atreides.

He saw the lie,

he saw the trap

to destruction instead of paradise

yet chose the throne.

He schemed among the enslaved fremen,

who trusted him as Messiah.

Paul grew into a king.

With the fremen he rose,

first he waged war on Hogwarts and Erebor

The Sith conquered

Paul stole the Gold of the dwarves

and sat on it boasting on himself

The Dwarves raged,

led by thorin

the dwarves came back to reclaim erebor

to restore their kingdom

they dreamed to take the earthly house

and make way

for their Messiah ben David

a warrior-king of iron,

to fulfill their pride

but Paul knew they would come

he waited

and at last as they tempted him

so He rose higher

he left the dwarves to take erebor

while the world was at stake

he went and conquered the Harkonnens

then he conquered the Jedi

Palpatine was behind the shadows

making way for the Sith Lord

and he gave Paul his crown

Anakin had turned to the Dark side

and he was given his crown

Alas the Sith Empire had taken over

and the dwarves at erebor

were conquered by the fremen

and the world bowed.

The Sith had conquered the world

and become The New Galactic Empire

And the crown was set upon the deceiver;

Palpatine was given Coruscant to rule over the Jedi

Darth Vader was given Giedi Prime over the Harkonnens

Paul Atreides was given Erebor,

Arrakis over the dwarves,

the wizards

and the Sith empire

They all became Sith Lords

And the world worshiped the completed Triad

Paul was not satisfied

he still remembered harry potter

and the rest of his friends who escaped

following the commands of the Lord

So He called palpatine to do so

and the deceiver commanded the purge

“Execute Order 66”

and Darth Vader marched forward

and waged on war

on those who followed the commands of the Lord

the jedi had fallen

The temples fell in a night of fire;

the robes were scattered like ash.

those who bowed for the mark

were spared by Vader

But the remnant waited

quiet in hidden valleys

for the coming of the true Lord:

The Lion of Judah,

to shatter the false kingdoms,

protect the lambs,

and reign forever.
